4/19/76

Dr. James Rhoads, Archivist
The National Archives
Washington, D.C.

Dear Mr. Rhoads,

Thank you for the pages from the "page proof" file, omitted and now received. I did not order it send at the added cost of registration, with return receipt to you and have not asked that anything be sent at this added cost in a very long time. I would prefer that you not undergo this added cost unless I ask it.

What you sent is not quite complete. There was more elaboration than Mr. Liebeler indicated. In the original request I asked for all the changes in and required by the changes in the subsection "Alleged association with various Mexican or Cuban individuals". I believe in repeating it I did refer to page 285, which is an error. It appears in the printed Report beginning on page 311. Before final editing, this passage extended past the bottom of page 305, the last of the edited pages sent me.

I would appreciate what is missing to what you sent me that will enable me to understand all changes this change required, in the preceding and following sections as well as in the above-titled one.

Also, Mr. Liebeler referred to his having written these changes on a yellow pad. The changes sent me are typed. I recognize that Mr. Liebeler's recollection may have been faulty, but it is also possible that they are accurate. Therefore, if such changes exist, Mr. Liebeler's, in writing, I'd like them also.

Sincerely,

Harold Weisberg
